Site Inspection Memo

Site's Name: Babylon Landfill

County: Suffolk

State ID #: 152039

CERCLA ID #: NYD980762728

Priority: **High**

The NYDEC is already conducting a remedial investigation or corrective action at this facility under the State's authority. The facility is also on the CERCLIS List and a candidate for Site Inspection.

A Site Inspection would be redundant at this time. I recommend a high priority for this site until the completion of the remedial investigation or corrective action. At this stage the state and the EPA would reach a final decision with the data gathered by the state's action. Attached is a fact sheet providing the current site status.
